1. Everyone introduced themselves.
2. Rep. Gail Chasey discussed the current 60-day Legislative session and answered questions about the budget and funding for education.
3. Joyce Pullen from the mayor's office discussed the Gilchrist house and its possible demolition by the city if the property owners don't renovate or sell it to someone else. She also said that the city will try to have city officials come to the fall block party to distribute parking permits.
4. Diane Dolan from Councilor Benton's office discussed Lead and Coal businesses and what the city can do – it can't give them funds or advertising, but it is listing them on www.leadandcoal.com. She also recommitted to traffic studies on north/south streets once Lead and Coal are done to see what traffic calming might be justified. She said that the feedback on Silver bike path is generally positive.
5. Savina Garcia and Diane Sholtis updated the schedule on Lead and Coal – it's on schedule and on budget, so far. The next nearby change is the shutting down of Yale between Coal and Cesar Chavez from mid-February and mid-March for two big storm sewer projects.
6. Discussion items were parking permits (Lois Kennedy agreed to help with followup), Zoning (Don Hancock, Cathy Zuklic, and Paulette Higgins will help), Crime (Sherry Smith will continue to work on Safe City and Paulette Higgins is interested).
